

# Ops Update

For all Michigan Medicine Faculty, Staff and Learners

Monday, March 8, 2021, 2:40 p.m.

Please share this information with your teams and front line staff, especially those who may not access emails or computers.

**NEW TODAY:** Here's the latest information about Michigan Medicine's management of operations:

- **COVID-19 PATIENT STATS**
- **TEAM MEMBER COVID-19 TESTING**
- **VACCINE DISTRIBUTION STATISTICS**
- **COVID-19 VACCINATION ELIGIBILITY**
- **TOWN HALL LAST FRIDAY**
- **UPDATED CDC TRAVEL GUIDANCE**
- **HIT PAUSE: HOPE, INSPIRATION, GRATITUDE**

## DAILY COVID-19 PATIENT STATS

Today's census for COVID-19 inpatients and those patients under investigation (PUI) are noted below:

	TOTAL INPATIENTS	TESTED POSITIVE	PUI	ICU POSITIVE
ADULT	35	34	1	4
PEDIATRIC	2	1	1	0

Statistics are updated here:

<https://uhabccappspr1.umhs.med.umich.edu:9223/>

COVID-19 Patient Percent Positivity (7 day moving average), as of 3/8

Symptomatic testing: 4.75 %

Asymptomatic testing: 0.52 %

**Discharges:** 1,838 total COVID-19 discharges to date, 3 in the last 24 hours. These numbers include patients discharged to skilled nursing facilities but excludes deaths and discharges to hospice.

### TEAM MEMBER COVID-19 TESTING STATS\*

POSITIVE	1,521
EMPLOYEES TESTED	13,874
TOTAL TESTS	25,703

\* Data from 3/5/2020 through 3/7/2021

Michigan Medicine Employee Rolling COVID Data	
Employees Positive Cases for preceding week (2/21 – 2/27/21)	10
Employee Positive Cases Last 7 Days	13
Employees Tested Last 7 Days	121
Positivity Rate (Week of 2/28–3/6/21)	10.74 %

*Testing stats reflect just Michigan Medicine employees, not all University of Michigan employees. It also reflects only those who sought testing at or were hospitalized at Michigan Medicine or reported their testing to Occupational Health Services. Some Michigan Medicine employees may have been tested outside our system.*

### VACCINE DISTRIBUTION STATISTICS

[Updated here.](#)

### COVID-19 VACCINE ELIGIBILITY IN MICHIGAN EXPANDS TODAY

Starting today, Mon., March 8, the State of Michigan expanded [eligibility for the COVID-19 vaccine](#) to include the following groups:

- Caregivers and guardians (age 16 and older) of children with special health care need: We are developing a process to connect these caregivers and guardians to vaccination opportunities at Michigan Medicine. We will provide more information soon regarding the process.
- Patients age 50 and older living with a disability or with COPD, hypertension, chronic kidney disease, heart disease, diabetes, obesity or [other conditions that put them at high risk of negative COVID-19 outcomes](#).

Beginning Monday, March 22, all patients age 50 and older will also be eligible for vaccination, as supply allows.

At this time, vaccine supply throughout much of Michigan remains very limited. Many patients age 65 and older are still in the process of being vaccinated, and we are unable to provide an estimate regarding how long it may take for individuals in the newly eligible groups to receive a

Michigan Medicine vaccine invitation. We will continue to provide updates to our community as we learn new information. Updates will also be available on the Michigan Medicine [vaccine hub website](#).

## **LINK TO TOWN HALL FRIDAY, MARCH 5**

Last Friday, leaders hosted a virtual town hall with a variety of updates. If you missed it, you can view the [video](#) with the following topics:

- Welcome and financial update, 0:07
- New hospital update, 2:21
- COVID-19 operations update, 7:11
- Vaccine update, 9:35
- Nursing update, 16:49
- AROC overview, 23:51
- Subcommittee updates, 26:35
- Q&A, 40:50

## **UPDATED CDC TRAVEL GUIDANCE**

The CDC has updated its travel [guidance](#) to include testing and quarantine recommendations for both domestic and international travel.

Domestic travelers should get tested no more than three days prior to travel and again within 72 hours after travel. A seven day quarantine following domestic travel is encouraged but is not required for University of Michigan faculty, staff, and learners.

International air travelers must follow CDC testing [requirements](#) related to air travel. Per University of Michigan policy, all faculty, staff, and learners must get tested within 72 hours after returning from international travel and stay home for seven days. Vaccinated workforce members are not required to quarantine following international travel if they meet all of the following criteria (testing is still recommended):

- Are fully vaccinated (i.e., ≥2 weeks following receipt of last dose in COVID-19 vaccine series)
- Are within three months following receipt of last dose COVID-19 vaccine series
- Have remained asymptomatic

Returning travelers may contact the Occupational Health Services (OHS) COVID-19 hotline for guidance. OHS can be reached at (734) 764-8021, seven days per week from 7 a.m. to 5 p.m. Please note that OHS does not offer testing for personal travel.

## **HIT PAUSE: HOPE, INSPIRATION, GRATITUDE**

*In this spot, we will share stories of hope, inspiration and gratitude. Take a few minutes to pause and reflect:*

How one caregiver keeps his Dad safe from COVID-19: read more in this [Michigan Health Blog post](#).
