### **VACCINE STATS**

Find the most timely and up-to-date information on the [Vaccine FAQs](#) and the [Vaccine Dashboard](#).

### **COVID-19 PREVENTION BEST PRACTICES**

COVID-19 transmission is high in our community and we have been seeing clusters amongst staff on multiple units. We are at a point where it is critical to reinforce the main prevention strategies for COVID-19. Please review the [COVID-19 Prevention Best Practices](#) to stay safe and help prevent COVID-19 transmission.

### **MASKING REMINDER FOR ADULT PATIENTS**

As we continue to see COVID-19 transmissions in the health care setting, ensuring a consistent process to have adult patients that can tolerate wearing a mask do so when healthcare workers are present is key. This will help protect patients and healthcare workers from COVID-19 exposures. Masking as source control is most protective when everyone is wearing one. Please share this [Patient Masking Flyer/Sign](#) in your local areas.

### **LAPTOP BATTERIES**

HITS is working to identify any issues of [swollen or disfigured laptop batteries](#). In some cases, battery swelling is significant enough to impact the touchpad, keyboard, or outer shell. If you experience this issue, please report it through the [Michigan Medicine Help Center](#) (help.medicine.umich.edu). *Never attempt to remove or replace a battery on your own.*

### **HIT PAUSE: HOPE, INSPIRATION, GRATITUDE**

*In this spot, we will share stories of hope, inspiration and gratitude. Take a few minutes to pause and reflect.*

Take a moment to think about the upcoming fall season and ways to find joy. Your colleagues have shared some of their favorite things to do in [this collection](#) of what they love about fall.
