Some Michigan Medicine employees may have been tested outside our system.*

### VACCINE STATS

Find the most timely and up-to-date information on the [Vaccine FAQs](#) and the [Vaccine Dashboard](#).

### PREPARING FOR SEVERE WINTER WEATHER

Severe winter weather is anticipated for our region beginning Wednesday morning. Departments and staff should always be prepared and review the organization’s [Severe Weather Plan](#) to help ensure the safety of all staff, patients and visitors.

Because of the organization’s commitment to providing exceptional patient care, all U-M Health System and Shared Services personnel are considered critical employees and are expected to report to work during regularly scheduled shifts in the event the university declares an emergency reduction in operations. U-M Medical School non-critical activities will follow the [campus reduction in operations plan](#).

Those employees working remotely will continue to work from home and are not to come into the office unless directed to do so by your supervisor.

In anticipation of the severe weather, the organization will be implementing its meal ticket and cot distribution program. Please note, due to supply chain constraints, those who need to utilize the program should bring their own linens and pillows.

Should the weather cause shortages among Liberty Security screening staff, the organization will prioritize keeping major entrances staffed and open. The initial entrances that would close due to any potential shortages would be the C&W Staff Entrance, the Rogel Cancer Center Staff Entrance and the UH South Staff Entrance (see map below).
Finally, stay tuned to the Employees @ Michigan Medicine Facebook page for any up-to-the-minute updates during the storm.

**ADULT EMERGENCY SERVICES VISITOR POLICY**

Effective today, Feb. 2 at 8 a.m., one visitor per patient per visit is allowed in Emergency Services. Due to continued waiting room capacity constraints, only medically necessary visitors will be allowed to wait with the patient in the emergency department waiting room if an exam room is not open upon completion of triage. All other visitors will be directed to the UH Main Lobby to wait until the patient is in an exam room.

All visitors must wear a department provided mask at all times regardless of vaccination status. Visitors who have tested positive for COVID-19 within the last 10 days or have COVID-19 symptoms will not be allowed except for end of life care.

COVID+/PUI: One adult visitor is permitted. In this situation the visitor must remain masked in the patient room with limited exceptions for restroom or food breaks.

**HIT PAUSE: HOPE, INSPIRATION, GRATITUDE**

*In this spot, we will share stories of hope, inspiration and gratitude. Take a few minutes to pause and reflect.*

February marks the beginning of the Lunar New Year. Learn more about how some of your colleagues celebrate and mark the occasion.
